

Due to all the new regulations, we no longer have the ability to see the volume of clients that we are accustomed to. New restrictions impose new challenges, therefore we will not be able to offer all of our services, appointment times will be extended, and our prices will increase. The recent events of this crisis have dramatically changed all of our lives and we are all trying to find a “new normal”.

With that in mind, we want to walk you through our “Phase One’ of what we are doing as a company to prepare for our mindful re-opening and to ensure that we can remain open. Your health and safety are paramount. This is a fluid process that will be ever- changing in reaction to the current environment.
